Petition

Bipole III

To the Premier:

Your government's proposed hydro line down the west side of Manitoba is estimated to cost at least $1 billion more than the east side option.

Further, the west side route will tear up approximately 500 more kilometres of Manitoba's environment than running it along the east side.

Manitobans can't afford your government's "make work" project.

We, the undersigned, urge you to build the line down the east side of Manitoba.
