Petition

Lower Gas Taxes & Dedicate Them to Roads

To the federal Minister of Finance:

Fuel taxes, on average, make up nearly 30% of the pump price. We petition you to introduce and pass the CTF's *Gas Tax Accountability Act* which will:

- Save consumers a total 2.4-cents a litre by eliminating the GST/HST "tax-on-tax", ending the deficit elimination tax and lowering the excise; and

Require the federal government by law to continue dedicating all gas and diesel taxes to roads.
