Calculations:

Note, federal taxes are broken out separately and are included in provincial totals.

Payroll taxes (CPP and EI) are included in the total personal income tax burden.

Tax calculations assume only a basic personal exemption.

Family tax calculations include Canada Child Tax Benefit, Universal Child Benefit, and \$2,000 per child tax credit.

Alberta, British Columbia and Ontario Health Taxes are included in the provincial tax burdens calculations for these three provinces.

Calculations may not include all province-specific tax credits.

Projections for 2009 are based on known tax changes announced in previous budgets.
