REPORT

Canadian Taxpayers Federation

Carbon Tax on Farmers Omni Results

DATE 2024-05-22

Methodology

An online survey.

1519 Canadian residents aged 18+.

Completed between 17th to the 19th of May 2024, inclusive, using Leger's online panel.

Typically, a margin of error is not associated with a non-probability sample (i.e. a web panel in this case).

For comparative purposes, though, a probability sample of 1519 respondents would have a margin of error of $\pm 2.5\%$, 19 times out of 20.

Leger's online panel

Leger's online panel has more than 400,000 members nationally and has a retention rate of 90%.

Quality control

Stringent quality assurance measures allow Leger to achieve the high-quality standards set by the company. As a result, its methods of data collection and storage outperform the norms set by WAPOR (The World Association for Public Opinion Research). These measures are applied at every stage of the project: from data collection to processing, through to analysis. We aim to answer our clients' needs with honesty, total confidentiality, and integrity.

Leger is the largest Canadian-owned market research and analytics company, with more than 600 employees in eight Canadian and US offices. Leger has been working with prestigious clients since 1986.

REPORT

Detailed Results:

A majority (70%) support taking the carbon tax off natural gas and propane for farmers.

Two-in-five (39%) strongly support taking off the carbon tax on natural gas and propane for farmers, while three-in-ten (31%) somewhat support it. Less than one-in-five (15%) oppose taking off the carbon tax. Those who support taking off the carbon tax are more likely to be men, Canadians 35+ in age, those living in rural areas (77% vs. 70% of Urbanites and 68% of suburban dwellers and Caucasian Canadians (73% vs. 63% of BIPOC Canadians). Regionally, those in British Columbia and Alberta are more likely to strongly support taking off the carbon tax compared to those in Quebec.

Q1 Federal MPs are considering legislation to take the carbon tax off natural gas and propane used on farms. The federal government doesn't collect carbon taxes for gasoline and diesel used in agriculture, but farmers pay carbon taxes on natural gas and propane used to heat barns and dry grain. Do you support taking the carbon tax off natural gas and propane for farmers?

Base: ALL (n=1519).

Significantly higher than counterpart(s)
