

# Two Percentage Point HST Increase and HST Credit

## Estimated Distributional Impacts

Household Income Range	Average Combined Impact per household	Combined Impact as % of Household Income	Number of Households
Min - 5,000	(127)	-6.97%	1986
\$ 0,001 - 10,000	(197)	-2.40%	3381
10,001 - 15,000	(185)	-1.48%	3102
15,001 - 20,000	(74)	0.41%	22606
20,001 - 25,000	(51)	-0.23%	16679
25,001 - 30,000	(44)	-0.18%	17191
30,001 - 35,000	(76)	-0.23%	21114
35,001 - 40,000	(16)	-0.05%	19889
40,001 - 45,000	83	0.20%	17699
45,001 - 50,000	233	0.49%	19052
50,001 - 60,000	223	0.41%	21533
60,001 - 70,000	417	0.64%	22197
70,001 - 80,000	565	0.75%	20763
80,001 - 90,000	665	0.78%	22908
90,001 - 100,000	843	0.88%	18412
100,001 - 125,000	838	0.75%	34462
125,001 - 150,000	1,029	0.75%	17852
150,001 - 175,000	1,107	0.68%	14558
175,001 - 200,000	1,351	0.73%	5193
200,001 - 225,000	1,613	0.77%	3132
225,001 - 250,000	1,397	0.59%	2215
250,001 - Max	2,170	0.55%	5385

**Note:** These estimates have been computed using Statistic's Canada's microsimulation tool SPSPD/M (2015).

Total household income is used in the above estimates.

The above estimates show the estimated average impact for NB households at selected income levels. Impacts will vary depending on household consumption.
