

To whom it may concern:

I am writing today to inform you of the embarrassment that we have let our Correctional Centers here in Manitoba come too. I know we all read in the papers about stiffer penalties and talk about victim rights and how the punishment should fit the crime. I can first handedly tell you that Manitoba Corrections has let the people of Manitoba the victims of crime and the people who are employed by them down.

What I am going to point out to you is shocking and most of you won't believe what is happening in correctional centers across Manitoba. But I am going to point out what our criminals experience on any long weekend in the summer while being incarcerated for crimes they have committed against the taxpaying public of Manitoba.

Take the violent and ruthless sexual predators like Glen Hope who viciously and without remorse sexually assaulted a six year old female child. This sick and repulsive deviant lured a small child away from a playground and repeatedly sexually violated her in ways that are unimaginable for anyone to comprehend. He lured her away from her family and friends and did stuff to her not only physically but mentally that she will carry with her for the rest of her life. And only when he had satisfied his own sexual fantasies and desires did he promise to kill her if she told anyone before letting her go.

Now that this horrific and unspeakable crime has been committed the fine individuals that we call the Winnipeg police Department had to come in and do the unthinkable task of interviewing this young girl and making her go through the entire ordeal over and over again. It is not until they have enough evidence that they can go ahead and make an arrest and bring this vile criminal to justice where he will be detained and kept locked away from the public so that he can hurt no other small children.

But wait there is a twist!

Once the WPS has gone through all the steps of making our children and our streets safer and locking these perverts away does the real crimes against the people of Winnipeg start.

The Senior Management Team and governing officials at Manitoba Justice has decided that rather than holding these criminals responsible for the crimes they have committed, they will think of ways that they can entertain them and keep them happy. Here are the ways that they have come up with.

On any long weekend you can come to Headingley Correctional Centre and find inmates that have been charged with Sexual related criminal offences and it deemed a necessity to be locked up at a correctional facility be roaming the grounds. On any nice sunny day outside of the "Assiniboine Treatment Centre." What is the Assiniboine Treatment Centre? Well it was formally a part of the jail called Annex B. The powers that be decided that they wanted a more therapeutic environment and decided to name it the Assiniboine Treatment Centre or the ATC. Which is confusing because they were not sentenced to a treatment centre they were sentenced to a prison term at a Correctional facility? Now if you can swallow the fact that the Senior Management team at HCC wants to make it more of a therapeutic environment at for these baby rapists then perhaps you should give your head a shake.

So you arrive at the institution to see these convicted sexual predators roaming around the grounds with freshly planted flowers, bird baths and hanging baskets. They might be roaming around in shorts and tank tops so that they can work on their tans or sipping coffee or listening to walkmans while watching a game of touch football being played by the equally twisted individuals they reside with inside of this treatment centre. You can tell the inmates are excited for something as it is a long weekend and everybody at Headingley knows what that means BBQ time.

That's right the Senior Management team takes money out of the inmates unit funds (which is a scam on the taxpayers itself as the money is raised by the profits the inmates use to buy canteen. Which is usually from the inmates who get the jails welfare? That's right they can apply for allowances to buy shampoo and hygienic products but the jail supplies that for free so they use it to buy chips and pop and protein supplement s) so they take the money and on a nice sunny day they have a BBQ for the inmates at the "Treatment Centre".

Now you must really be shaking your head but it gets worst once the BBQ is done and the people that sexually tortured small children have had enough soon they move inside to take part in a card tournament or a bingo game that is held by the jail. This actually comes with cash prizes for the inmates that is paid out by the jail that comes from the unit funds that comes from the canteen that comes from special allowance that comes from the taxpayers yeah I know you have heard it. So what happens if you get knocked out of the tournament and can't win any of that cold hard cash or canteen well grab a seat and watch the Stanley cup playoffs on not one but two of the giant flat screen that the jail has bought for the inmates with our tax dollars and mounted on the wall for them to enjoy.

But wait!

The Sex offenders are not interested in hockey they are more interested in playing the Sony PlayStation 3 that the jail has purchased for them. That's right the Senior Management team at Headingley Correctional Centre that's Superintendent Greg Skelly, Acting Deputy Assistant Superintendent Jamie Wardrop, Acting Assistant Superintendent of Operations Tim Matson and Acting Assistant Superintendent of Programs Josh Cooney have decided that they should spend the days playing PlayStation 3 and Guitar Hero.

I know what you are thinking these men should all be fired! First they have taken the judge's ruling of sentencing a sex offender to a prison term and ignored it and placed them in a "Treatment Center" stocked it full of PlayStation 3 and Giant flat screen TVs and then hold BBQ and bingo tournaments for them with taxpayer dollars.

So in closing once again I apologize to the victims and their families as I was a Correctional Officer and Manitoba Justice had tied my hands and prevented me from doing my job. I apologize to the Winnipeg Police Department for all the hard work you have done. I know that you will be re-doing it because our

recidivism rate continues to rise because they want to come back to jail to play video games have BBQ and use the facilities gym that has more universal gyms and treadmills then shapes. I am sorry to the tax payers who have no clue how much of their hard earned money is wasted day to day trying to keep these pedophiles happy rather than using it on safety and security. And lastly I am sorry to all the people that work at Headingly Correctional Centre I know how hard it is for you to show up to work and try and do a job you took an oath to do to the best of your abilities while the Senior Management team there continues to step on you and make you slaves to the inmates!

Signed:

Free from the restraints but not silenced!
