Mr. Craig:

Further to your request of December 9, 2013 requesting documentation on "any analysis the school board completed or any data it used to determine if rate payers could afford the board's last two education property tax increases", I wish to advise that the Board of Trustees does not conduct such as analysis. Copies of the power point presentation presented to the Board of Trustees in January 2012 and January 2013, in preparation for the 2012-13 and 2013-14 budgets respectively has been included for your information.

Past budget information can also be found on our Division website at the following:

Yours truly,

D. Labossiere, CGA  
Secretary-Treasurer
