Dear Mr. Craig:

RE: Your Access to Information Request Number A-2012-00422

The Saskatoon Health Region has received an Analysis Report from the Saskatchewan Information and Privacy Commissioner. The Saskatoon Health Region would like to work with you regarding your request.

Nilesh Kavia, Vice President of Finance and Corporate Services has provided comments in hopes of satisfying your request for information as it relates to the Royal University Hospital's Starbucks "net profit or loss by year". "The Starbucks kiosk operated in the Royal University Hospital has had an average annual profit of \$65,000. As part of our overall financial stewardship we have had a strong focus on improving the profitability of our retail food services. This year our February year to date results show a \$177,496 net margin from Starbucks and an overall \$478,020 net margin from retail food services. The Saskatoon Health Region recognizes the positive contribution that Starbucks has provided to our clients, families and staff. It is a meeting place for those we serve and provides an opportunity for our staff to gather for their coffee breaks. Should the applicant wish to call me and discuss the annual profit balance of Starbucks they are certainly welcome to do so. The release of isolated figures on the redacted documents provided last fall would not provide the applicant with the true financial value of the Starbucks kiosk."

Should you wish to speak to Nilesh please feel free to call him at (306) 655-7975.

Sincerely,

A handwritten signature in black ink that reads "W. Atkinson".

Wenda Atkinson
